EXCELLENT HIGHER EDUCATION IN BELGIUM

FRENCH-SPEAKING

In French-speaking Belgium, the education system is varied, diversified and accessible. Universities, university colleges and schools of arts; from bachelor level through to PhD, each and every student are sure to find the right education for their plans.

The internationalisation of Belgian higher education in figures

21%

OF INTERNATIONAL STUDENTS CHOOSE BELGIUM FOR THEIR STUDIES EVERY YEAR.

47%

OF FOREIGN PHD STUDENTS CHOOSE BELGIUM FOR THEIR RESEARCH EVERY YEAR.

68%

OF ALL SCIENTIFIC PUBLICATIONS ARE CO-PUBLISHED WITH FOREIGN RESEARCHERS.

20%

OF ALL ACADEMIC OR SCIENTIFIC STAFF ARE OF FOREIGN ORIGIN.

+50%

PHD STUDENTS IN THE LAST 10 YEARS.

20%

OF STUDENTS HAVE A STUDENT GRANT.

16%

OF FRENCH-SPEAKING BELGIAN STUDENTS ARE INTERNATIONALLY MOBILE.

THOUSANDS OF JOINT PROGRAMMES HAVE BEEN DEVELOPED, INCLUDING "ERASMUS MUNDUS" MASTER'S DEGREES AND PHDS.

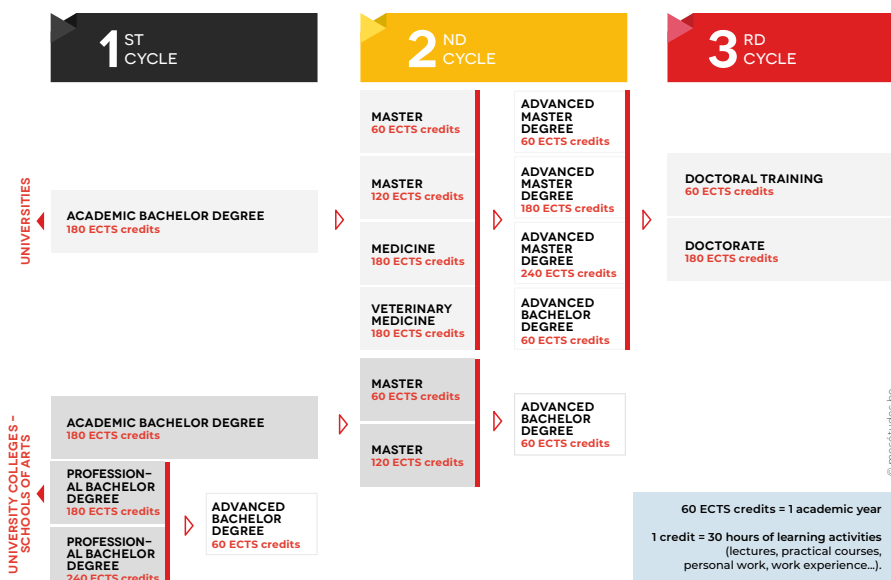

NUMEROUS COURSES ARE DELIVERED IN ENGLISH, SPANISH, GERMAN AND DUTCH.

KEY INFORMATION FOR SETTING UP COLLABORATIONS WITH OUR HIGHER EDUCATION INSTITUTIONS

Belgian qualifications recognised worldwide

In French-speaking Belgium, higher education is based on a system of three cycles of studies: the bachelor's degree, the master's degree and the PhD. Each qualification obtained gives you ECTS credits, which are recognised in numerous countries in both the European Union and worldwide. As an adhering member of this system, the Wallonia-Brussels Federation is committed to guaranteeing the quality of higher education, promoting student mobility and strengthening the globalisation of its higher education.

How higher education works

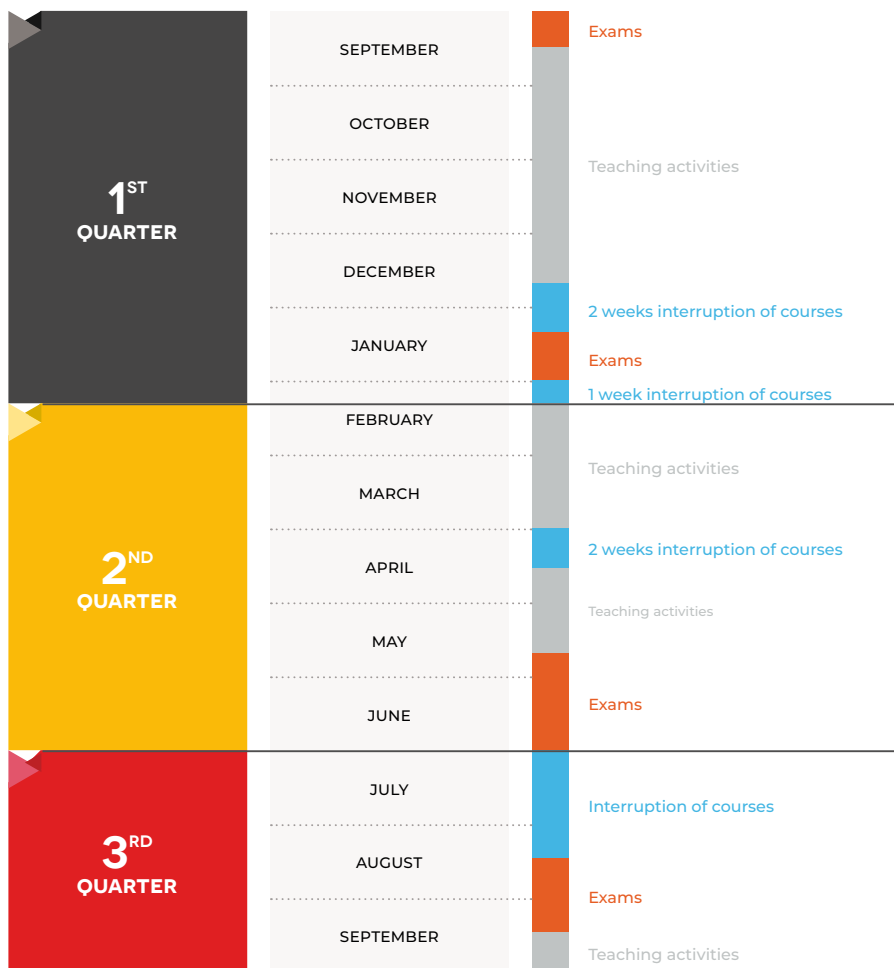

The award of the qualifications (bachelor's degree, master's degree and PhD) is linked to the number of years of studies completed since entering higher education. Each year can award up to 60 ECTS credits (European Credits Transfer System), which can be used and transferred from one country to another.

- A 1st cycle qualification (bachelor's degree) represents 180 or 240 ECTS credits, namely 3 or 4 years of study.
- A 2nd cycle qualification (master's degree) represents 60, 120 or 180 ECTS credits, namely 1, 2 or 3 years of study.
- A 3rd cycle qualification (PhD) represents a variable number of ECTS credits.

Academic calendar

As a rule, the calendar of an academic year in French-speaking Belgium is divided up into three terms. Learning is split over the first two terms, except for certain assessments or professional integration activities.

UNIVERSITIES IN FRENCH- SPEAKING BELGIUM

Theoretical and scientific education

Spread throughout the Wallonia-Brussels Federation territory, the French-speaking universities of Belgium offer their students quality education. The options are divided up into four fields of study: science and technology, human sciences, health and art.

Research at the heart of the French-speaking Belgian university course

In addition to in-depth knowledge of the chosen subject, the Wallonian and Brussels based universities offer a solid general education, encouraging their students to take a scientific approach. This is why the focus is firmly on research, both basic and applied. And it is this philosophy that makes the universities of French-speaking Belgium institutions that are famous for the excellence of their research programmes and have earned them a remarkable reputation both in our country and beyond. As indeed is proven by the numerous Nobel prize winners who have come out of our institutions: 4 Nobel prize-winners for medicine, 5 for peace, 1 for literature, 1 for chemistry and 1 for physics!

How are university studies organised?

The universities offer long-term education programmes made up of two cycles:

- a 1st cycle (180 ECTS credits) that takes the students up to Academic bachelor's degree level, i.e. its main aim is to prepare for the master degree that follows;
- a 2nd cycle, leading to a master degree (60, 120 or 180 ECTS credits).

These two cycles can be followed by a 3rd, a PhD.

UNIVERSITÉ CATHOLIQUE DE LOUVAIN (UCLouvain)

HEAD OFFICE

Place de l'Université 1
1348 Louvain-la-Neuve
<https://uclouvain.be>

Contact persons for international relations:

Christel VACELET, Director of International Relations Administration:
international@uclouvain.be

Isabelle DE CLERCK, Director of International Relations on Saint-Louis -
Brussels campus: international-slb@uclouvain.be

Founded in 1425, the University of Louvain (UCLouvain) is one of Europe's oldest universities. It has 40,000 students, 20% of whom are international, spread over 7 campuses, the main one located in a unique environment a few kilometres south of Brussels and 3 others in the heart of the capital. UCLouvain is the country's leading French-speaking university and is ranked as Belgium's top university for sustainable development in the Times Higher Education (THE) rankings.

UCLouvain offers high-quality teaching in all disciplines, thanks to its 20 faculties and research activities focused on current societal issues such as climate change, democracy, global health, sustainable development and innovation. With 60 ERC (European Research Council) grants and numerous other international awards, teaching at UCLouvain is based on solid research and innovation, with many practical applications for society, as illustrated by the 72 spin-offs and over 270 companies in the university's two science parks. UCLouvain also has two university hospitals, one located in Brussels (Cliniques universitaires Saint-Luc) and the other at the heart of Wallonia (CHU UCL Namur).

UCLouvain is part of the Circle U. European University alliance together with Aarhus University, King's College London, Humboldt University in Berlin, Université Paris-Cité, University of Belgrade, University of Pisa, University of Oslo and University of Vienna.

Since September 2023, the Université Saint-Louis - Bruxelles has merged with UCLouvain to become one of its campuses. Saint-Louis - Brussels is a campus on a human scale, with a strong emphasis on welcoming students and providing them with personalised support and guidance. It is also recognised for the quality of its bilingual and trilingual programmes, which it has been organising for over thirty years, and for its innovative facilities for intensive foreign language learning.

UNIVERSITÉ LIBRE DE BRUXELLES (ULB)

**HEAD OFFICE**

Av F.D. Roosevelt 50

1050 Bruxelles

<https://www.ulb.be/en/>**Contact person for international relations:**Elodie DECOSTRE: Elodie.Decostre@ulb.be,<https://www.ulb.be/en/contacts>**ULB, a free thinking since 1834.**

At the heart of Europe and Belgium, Brussels offers all the advantages of a capital and the quality of life of a large, lively city where life is good. ULB also has three campuses and two locations in Brussels, and two campuses in Charleroi.

In search of excellence.

More than 4,300 researchers and more than 2,100 doctoral students, working in our 200 research centers and 15 interfaculty institutes, contribute every day to advancing our knowledge and consolidating ULB's expertise. ULB researchers have been awarded 4 Nobel Prizes in Science.

Multicultural and open to the world.

More than a third of our university community (students, academic staff, and researchers) comes from abroad (140 nationalities). Our dynamism in terms of openness to the world is reflected in the richness of our relationships with 644 partner institutions in 87 countries, including some of the world's best universities in the world and our close collaboration with many universities in the South.

A strong commitment since 1834.

Founded on the principle of independent thinking and the rejection of dogma, the University has remained true to its original ideals: an institution free from any form of tutorship, committed to the defence of democratic and humanist values.

Cutting-edge education for all.

Our 12 faculties, schools and institutes offer training in all disciplines, with nearly 41 Bachelor's programmes, 180 Masters, 6 Erasmus Mundus and more than 65 specialised Masters.

UNIVERSITÉ DE LIÈGE (ULIÈGE)

HEAD OFFICE

Place du 20-Août 7

4000 Liège

<https://www.uliege.be/>

www.international.uliege.be

Contact person for international relations:

Oriana BERTUCCI: international@uliege.be

The University of Liège is one of Belgium's leading public universities and the first public university of the French Community of Belgium. With 11 faculties, ULiège offers a broad range of disciplines across the humanities and social sciences, health sciences, science, engineering and technology.

ULiège welcomes more than 29,000 students from 141 nationalities, with international students accounting for 24% of its undergraduate population and 50% of its doctoral students. It offers one of the most diverse academic portfolios in Belgium, with 39 Bachelor's and 193 Master's programmes. Several programmes hold internationally recognised quality labels and accreditations, including EQUIS, AACSB, AEEFV, Conférence des Grandes Écoles and EMT.

With campuses in three cities in Wallonia – Liège, Gembloux and Arlon –, ULiège is a major centre for higher education, research and innovation in the region. With more than 5,800 staff members, the University is also one of the region's major employers. Together with Liège University Hospital (CHU de Liège), the wider university ecosystem accounts for approximately 13,000 direct jobs across the provinces of Liège, Namur and Luxembourg.

ULiège is home to internationally recognised research centres working in strategic fields such as biotechnology, life sciences, medical and veterinary sciences, agronomy, space sciences, engineering and environmental sciences. The University works closely with public authorities, businesses and academic institutions in Belgium and around the world, fostering knowledge exchange and innovation. More than 100 ULiège spin-offs are currently active, reflecting the University's strong commitment to knowledge transfer and entrepreneurship.

The humanities and social sciences are also a major part of ULiège's academic profile, encompassing fields such as philosophy, languages and literature, social sciences, law, economics and psychology. The University also holds a remarkable scientific and cultural heritage, including major libraries, heritage collections and archives. In particular, ULiège is the custodian of a significant part of the archives of Georges Simenon, the internationally renowned writer and creator of Inspector Maigret, who was born in Liège.

Open to the world and deeply rooted in its region, ULiège contributes to the international profile of Wallonia and the French Community of Belgium through its teaching, research, innovation and extensive network of international partnerships.

UNIVERSITÉ DE MONS (UMONS)

HEAD OFFICE

Place du Parc 20

7000 Mons

<https://web.umons.ac.be/en/>

Contact person for international relations:

Géraldine BERGER: geraldine.berger@umons.ac.be,

relint@umons.ac.be

The University of Mons (UMONS) is a French-speaking university established in Wallonia, Belgium, near the French border, in Mons, European Capital of Culture in 2015, and Charleroi.

UMONS has 3 schools and 7 faculties, including the Faculty of Engineering, founded in 1837, which is the oldest engineering faculty in Belgium. UMONS offers approximately 150 different study programmes to nearly 12,000 bachelor's, master's and doctoral students in a wide range of fields, including law, psychology, social sciences, biomedical sciences, economics, electrical engineering, management, materials science, mechanical engineering, urban planning, information technology, architecture, interpreting, speech and language therapy, mathematics, chemistry, pharmacy, translation, biology, geology and medicine. All faculties offer doctoral programmes, many of which are conducted under joint supervision. Double degrees may also be awarded, for example within the TIME network.

UMONS favours its students' and researchers' mobility through a large number of international programmes (e.g. Erasmus+): nearly 350 academic and scientific partnerships with more than 50 countries across the five continents.

With more than **1,750 researchers (including 600 PhD candidates)**, UMONS's research objectives are both regional and international in scope. **Its research is structured into 10 thematic research institutes, bringing together teams from several faculties around**

a wide range of fields, from life and health sciences to science and technology, as well as the humanities and social sciences. Thanks to the quality and excellence of its research, UMONS is internationally recognised (QS rankings, U-Multirank, etc.).

This dynamic is further strengthened through the UMONS Innovation Network, which connects university research, the applied expertise of the UMONS Innovation Centers and socio-economic stakeholders in order to facilitate collaboration, the promotion of research results and entrepreneurship. Its core network consists of UMONS research institutes and technology platforms, the UMONS Innovation Centers and spin-offs.

UMONS plays a key role in coordinating the Pôle Hainuyer, a local network of higher education institutions serving approximately 40,000 students (universities, university colleges and art schools). Furthermore, UMONS is also one of the ten European universities integrated into the EUNICE European University Alliance. Its Rector was the first President of the EUNICE University from 2022 to 2024.

UMONS places students at the heart of its mission, and welcoming them into a supportive, human-scale environment in which to study and live is one of its priorities. Its educational programmes aim to develop the intellectual, cultural and personal capacities of students and researchers, enabling them to become responsible members of society by fostering critical thinking, openness, tolerance, responsibility and autonomy.

UNIVERSITÉ DE NAMUR (UNAMUR)

**HEAD OFFICE**

Rue de Bruxelles 61

5000 Namur

<https://www.unamur.be/en>

**Contact person for international relations:**

Isabella FONTANA: direction.sri@unamur.be,

international-relations@unamur.be

Founded in 1831 by the Society of Jesus, the University of Namur carries on in its teaching and research the humanistic values of openness, excellence, freedom, and sustainability. Its priority is to train students and researchers to become responsible contributors to society.

Located in the heart of Europe, in the French-speaking part of Belgium, in Namur — the capital of Wallonia — the University welcomes around 7,500 students across 7 faculties, offering more than 90 academic programs. It is also active in research, with 11 interdisciplinary institutes carrying out work in fields as diverse as the ethics of nanotechnology, linguistics, computer science, human rights, veterinary science, and social sciences, among others.

The quality of its teaching and the excellence of its research have allowed UNamur to develop cooperation and exchange programs benefiting students, researchers, and professors.

Thanks to its international network, which is based on over 250 partnerships with universities and faculties abroad on five continents, UNamur offers its students in all three cycles the opportunity to gain international experience, whether through study mobilities or internships in partner laboratories or international companies.

UNIVERSITY COLLEGES IN FRENCH-SPEAKING BELGIUM

Practical, professional education

All the French-speaking university colleges of Belgium offer a quality education, liaising closely with applied research, universities, and socio-professional environments. Differently to the universities, the teaching employed in the university colleges is hinged on learning and the world of work. The theoretical and conceptual aspects are all part of the programme with a heavy focus on internships, which are mandatory. University colleges account for about 45% of the student population.

How are university colleges studies organised?

- Studies organised as a single cycle, leading to a professional bachelor's degree (180 - 240 ECTS credits).
- Studies organised into two cycles, leading to an academic bachelor's degree (1st cycle - 180 ECTS credits) and master (2nd cycle - 60 to 120 ECTS credits).
- Studies organised into one or two cycles, leading to an advanced bachelor's degree. This can be obtained after having successfully completed an initial bachelor's or master's degree. The advanced bachelor's degree contains at least 60 ECTS credits.

HAUTE ÉCOLE ALBERT JACQUARD

HEAD OFFICE

Place de l'Ecole des Cadets 4
5000 Namur
<https://www.heaj.be/en/>

Contact person for international relations:

Véronique VAN CAUTER: veronique.vancauter@heaj.be,
cri@heaj.be

The Haute École Albert Jacquard (HEAJ) in Namur offers a wide range of training courses geared to the professions of tomorrow.

The bachelor's degree programs on offer include courses in graphic design, covering in particular graphic communication, 2D and 3D animation, special effects, multimedia and mobile applications, and many other digital subjects such as digital photography (augmented and virtual reality images). The Green Packaging Design program, which combines biodiversity, innovation and economics, is offered at Gembloux.

The full Master's programs in Video Games and in Transmedia – the only ones of their kind in Belgium – offer a holistic approach to careers in the visual media and gaming industries, ranging from game design to technical and artistic production, including management and communication.

In addition, a number of business-related courses are offered, including accounting, communication, public relations and executive assistant courses, as well as language courses.

The pedagogical department offers courses for pre-school, primary and secondary education.

HEAJ is widely recognized for its innovative programs. It also maintains international partnerships, offering exchange and internship opportunities abroad.

The school also supports student entrepreneurs through dedicated programs to develop and realize their projects.

Finally, student life is dynamic, with events and activities organized throughout the year.

What sets HEAJ apart is its hands-on approach and its commitment to prepare students for the next generation professional challenges.

HAUTE ÉCOLE BRUXELLES-BRABANT

**HEAD OFFICE**

Boulevard Louis Schmidt 2
1040 Bruxelles
<https://www.he2b.be/>

**Contact persons for international relations:**

Marie-Laure BRASSEUR and Oriane SPOTO: international@he2b.be

Studying at HE2B, Haute École Bruxelles-Brabant, is a guarantee:

- of high-quality higher education that launches students into a fulfilling professional life and gives adults resuming studies the possibility of expanding upon their knowledge;
- of evolving in a welcoming, diversified environment hinged on humanist, democratic and fair values;
- of taking part in institutional life, developing innovative projects that satisfy the challenges of the societies of today and of tomorrow;
- of being assisted and supported throughout the process, in all difficulties and differences, in a school that specialises in success.

HE2B is a university college that offers a truly positive dynamic to allow everyone to reach excellence.

Professional Bachelor's degrees, Master's degrees and specialisations.

International exchanges, training courses, study and research areas (libraries, games library, research centre, etc.), numerous student services (accommodation assistance, student support, for students with special needs and sports students, social services, etc.).

HAUTE ÉCOLE CHARLEMAGNE

HEAD OFFICE

Rue des Rivageois 6
4000 Liège
<https://www.hech.be>

Contact person for international relations:

Anne-Marie MARTIN LANERO: relinter@hech.be

The Charlemagne University College (HECh) offers higher education programmes open to all: professional bachelors, master's degrees and specialisations. More than 30 programmes are offered across five departments (agronomy, biomedical sciences, economics, education and techniques). The HECh is organised by Wallonia-Brussels Education.

With a student-centred approach, its four campuses, located in the regions of Liège and Namur (in Liège, Verviers, Huy, and Gembloux), ensure that every student is at the heart of the learning experience. Practical training is central to the curriculum as work placements form a significant part of the programme. Company visits and professional seminars complement this approach.

By the end of their course, students have gained solid practical experience and are ready to enter the world of work straight away. They are particularly highly regarded by employers.

Studying at the Haute École Charlemagne guarantees:

- access to high-quality higher education, enabling students to become quickly employable;
- the opportunity to thrive in a welcoming environment, grounded in human values;
- guidance and support throughout their studies.

International exchanges, work placements, and a wide range of student services (academic support, social services, etc.): the student is our priority!

HAUTE ÉCOLE EPHEC

HEAD OFFICE

Avenue Konrad Adenauer 3
1200 Bruxelles
<https://www.ephec.be/>

Contact person for international relations:

Caroline LOVENS: c.lovens@ephec.be,
international@ephec.be

EPHEC University College is organised into four faculties linked to four main training sectors: **EPHEC Business**, **EPHEC Education**, **EPHEC Santé (Health)** and **EPHEC Tech** providing access to qualified jobs in growth sectors or to a second academic cycle. EPHEC will organise 13 bachelor's degrees, 4 specialisation bachelor's degrees and 12 master's degrees. EPHEC aims to **develop** not only students' **technical skills**, but also their solid **cross-disciplinary skills** - creativity - cooperation - active listening - problem solving - decision making, in order to ensure a **sustainable employability**.

We are deeply convinced that the perfect combination of these hard and soft skills will enable each student to develop his or her personal project, at local or international level, and contribute to building a more sustainable world. Our academic institution wishes to foster the development of individuals and society while being recognised for the expertise of our staff in the education and professional training of citizens who can play an active and enterprising role in society, from the outset and throughout their careers, at local and international level.

Our **pillars** are :

A hands-on pedagogical approach

In our pedagogical approach, a thorough understanding of theoretical principles is combined with innovation in practical training through small classes. Collaboration, practice, professionalism and entrepreneurship are the essence.

Strong links with the professional world

EPHEC has strong relationships with leading companies (both for-profit and not-for-profit) and work-integrated learning is part of every degree. Students have experience in their field even before they graduate.

Internationalisation

Our aim is to develop international skills for all our students. Study and work placement mobility, short international programmes, internationalisation at home (I@H), and virtual projects are developed with the help of a large network of international partners. But our aim is also to offer all members of staff the opportunity to gain international experience through training or education.

Research and development

EPHEC aims to conduct research projects closely related to our teaching areas. We seek collaboration and co-creation with our public and professional, local and international, business and government partners.

HAUTE ÉCOLE FRANCISCO FERRER

HEAD OFFICE

Quai de Willebroeck 33
1000 Bruxelles
<https://www.he-ferrer.eu/>

Contact person for international relations:

Ilias OUEHHABI: ilias.ouehhabi@he-ferrer.eu,
heff.europe@he-ferrer.eu

The Haute École Francisco Ferrer, a higher education institution of the Wallonia-Brussels Federation, is situated in Brussels, at the very heart of Europe's capital, thereby making it open by tradition to intercultural exchange and to welcoming international citizens.

Its courses are organised within 5 departments: Applied Arts, Social and Economic, Paramedical, Teaching and Technical. Training is mainly for professional Bachelor's degrees running for 3 or 4 years, focussed on professional practice and integration into the world of work.

The welcoming and accompaniment of students from partner institutions are assured by our International Relations Office.

For an ever-greater international approach, the university college has created an "International Programme in English" for its students in the "Business and Administration" Economic Department.

The values of the university college can be seen in the Social and Cultural Teaching Project as well as in the university college's globalisation strategy.

HAUTE ÉCOLE GALILÉE – IHECS

**HEAD OFFICE**

Rue de l'Étuve 58-60
1000 Bruxelles
<https://www.ihecs.be>

**Contact person for international relations:**

Sophie HENRARD: sophie.henrard@galilee.be

Since 1958, the Haute École Galilée IHECS has been training future professionals in journalism and communication in Brussels. Its courses combine theoretical teaching, practical media experience and the delivery of real-world projects.

IHECS now welcomes its students in the heart of Brussels' MediaPark, in the Campus Reyers. This rapidly developing neighbourhood is home to numerous media organisations, companies, institutions and organisations from the creative industries. Studying in this environment allows students to discover the Belgian media sector from the inside, to meet a wide range of people and to forge new collaborations.

With an international outlook, IHECS places great emphasis on international exchanges and experiences. Every year, 250 students and 50 lecturers take part in study abroad programmes. The institution also welcomes students from various countries, who join a vibrant and diverse community in Brussels, the capital of Belgium and Europe.

HEG IHECS comprises:

- Nearly 3,000 students
- Nearly 300 staff members
- Over 450 graduates each year
- 1 bachelor's degree, 6 master's degrees and 4 part-time master's degrees
- One field of study: communication and journalism
- An institution at the heart of MediaPark and Brussels' media ecosystem

HAUTE ÉCOLE ICHEC – ECAM – ISFSC

HEAD OFFICE

Boulevard Brand Whitlock 6
1150 Bruxelles
<http://he-ichec-ecam-isfsc.be/>

Contact person for international relations:

Sophie PETERS: sophie.peters@ichec.be,
exchange.in@ichec.be

With its 4 campuses located in the heart of Brussels, the University College ICHEC-ECAM-ISFSC offers 26 courses in fields such as economic and management science, engineering science and technology, information and communications and social and political science. It also operates in research, continuous training and entrepreneurship.

International scope

The University College welcomes more than 4,300 students of more than 60 different nationalities each year. The group's international scope is one of its academic pillars and it offers students many opportunities for training in French or English or on French/English bilingual courses. These include, for example, the 'Master's degree in Management Sciences' and the 'Master's degree in Business Management'.

Its students also have the possibility to engage in many inter-university exchange programmes due to more than 213 bilateral agreements signed with its partners in Europe and worldwide.

Academic excellence

ICHEC is accredited with the prestigious AACSB quality label which certifies the institution's value on the national and global stage. Its joint diploma in finance co-awarded by the Louvain School of Management is recognised by the CFA (Chartered Financial Analyst) Program.

ICHEC is the first French-speaking Belgian member of the CLADEA network, a prestigious global management school network based in Latin America.

ECAM's 6 engineering courses are accredited by the CTI (Commission des Titres d'Ingénieur) engineering degree commission.

Business experience

Its educational mission is anchored in a balanced combination of theory and practice.

With close and solid ties to the business world, the institutions offer their students professional immersion (internships, business projects, etc.) that is unique in Belgium and abroad, throughout their academic career.

Innovative teaching

Thanks to their human size, ICHEC, ECAM and ISFSC guarantee all their students continuous and personalised supervision. Their teaching methods are flexible, innovative and constantly being adapted to the changes affecting the fields taught.

HAUTE ÉCOLE EN HAINAUT

**HEAD OFFICE**

Rue Pierre-Joseph Duménil 4
7000 Mons
<https://www.heh.be/en/>

**Contact person for international relations:**

Laurence BARAS: laurence.baras@heh.be,
relations.internationales@heh.be

HEH.be provides Bachelor's and Master's degrees organised by Wallonia-Brussels Federation.

Since 1996, the year of its creation, Haute École en Hainaut (HEH.be University College) has always met the challenge of offering a quality education provided by well-motivated teachers and promoting student success thanks to an individualised support throughout their training.

To achieve its goals, HEH.be offers its more than three thousand students a range of thirty-one Bachelor's and Master's study programmes spread across four departments in Mons and Tournai. Furthermore, the institution is also committed to providing inclusive higher education.

Since 7 November 2013 and the adoption of the decree redefining the landscape of higher education, HEH.be has been part of the Pôle hainuyer academic centre, the higher education hub in the province of Hainaut, and works together with the other higher education partner institutions of Hainaut to fulfil its tasks of teaching, research and services to society.

Aware of the importance of international openness, HEH.be signed the Erasmus Charter for Higher Education 2014-2020 and is a beneficiary of the Erasmus+ European mobility programme. It can thus provide mobility grants to its students so that they can carry out an internship or part of their studies abroad.

Michel VAN DEN HOVE : international@vinci.be

The Haute École Léonard de Vinci (HE Vinci) is a higher education institution recognised for the quality of its 39 short-term (Bachelor's degree), longer (Master's degree) and specialisation courses.

Located in Brussels (Woluwe-Saint-Lambert and Ixelles) and in Louvain-la-Neuve in an urban and green setting, the Léonard de Vinci University College is home to more than 9,000 students of 68 different nationalities.

Its priority is to train state-of-the-art professionals in their areas. The approach taken by programme and teaching by project successfully tailor the students' studies, giving them the chance to complete traineeships in the world of work right from the very first year.

The university college also increases the international partnerships that students and teaching and administrative staff can benefit from throughout their time here.

In 2025, HE Vinci adopted an ambitious strategic plan. Four priority strategic areas emerged from this plan:

- Social, societal, and environmental transition
- Technological advancements
- Well-being and professional development
- Institutional resilience

HAUTE ÉCOLE LIBRE DE BRUXELLES ILYA PRIGOGINE

**HEAD OFFICE**

Bâtiment HA – ULB (CP 220/01)
Boulevard du Triomphe 1
1050 Bruxelles

**Contact person for international relations:**

Etienne COPPIN: etienne.coppin@helb-prigogine.be,
international@helb-prigogine.be

The Haute École Libre de Bruxelles trains thoughtful future professionals with a critical mind and who develop into responsible citizens. It is backed by the ULB. It has a vocation for local teaching (teaching management) open to the world (social, economic and cultural).

It encourages applied research and is clearly in favour of the “globalisation” of its teaching (student and teacher mobility) and promotes international experiences for as many people as possible through internships, short academic stays and intensive hybrid projects. The university college is proudly welcoming and is committed to sustainable development.

It organises short Bachelor's degree courses: Social Worker, Cinematography, Social Ecology, Applied Electronics (run jointly with HE Ferrer), Occupational Therapy (run jointly with HE2B), Oral Health and Dental Hygienist (organised jointly with ULB, UCLouvain and HE Vinci), Management IT, Orthoptics (run jointly, organised jointly with Institut Ilya Prigogine, ULB, UCLouvain and HE Vinci), Photography, Podiatry, Public Relations, Midwifery, Nursing Care (and specialisations).

It also organises a Master's degree in Physical Therapy and co-organises a Master's degree in Cyber Security.

Pauline CORNIL: international@helha.be

Today, HELHa is the largest University College in the Wallonia-Brussels Federation. HELHa aims to become a key player in higher education in French-speaking Belgium, training professionals with high added value: expertise, self-fulfilment and solidarity. To become a benchmark, our University College is putting in place conditions promoting the success of its students, at academic, professional and personal levels. The aim is to train professionals who are in step with developments in the world of work and society, while maintaining a welcoming and friendly atmosphere.

In a nutshell, HELHa is :

- 4 separate departments, namely the Department of Arts, Business and Communication, the Department of Health and Medical Technologies, the Department of Education and Social Work and the Department of Sciences and Life Technologies;
- 65 short courses (3 to 4 years with a Bachelor's or Master's degree) and long courses (5 years with a Master's degree);
- 14 locations in the Charleroi, Mons, Tournai and Walloon Brabant areas;
- A wide range of support services for students (via the social unit, psychological unit, sports unit, inclusion unit, guidance and reorientation unit, student entrepreneurs unit, international office, documentation centre, etc.);
- Numerous contacts with companies in both the public and private sectors;
- An average of 10,000 students per academic year;
- Over 2,000 graduates per year;
- And a wide range of career opportunities for our students, who have developed all the skills and softskills they need to be immediately effective in the job market.

HAUTE ÉCOLE LUCIA DE BROUCKÈRE

The Haute École Lucia de Brouckère (HElDb), located in Brussels and in the Walloon Brabant, offers a wide range of three-year (Bachelor's degree) and five-year (Master's degree) trainings.

It organises approximately 15 different programmes, gathered in 5 categories: agronomic, economic, paramedical, educational and technical.

The university college combines the theoretical and practical aspects thanks to training in the field, conferences, study stays... Split into small groups, the students benefit from the experience and knowledge of their teachers, often coming from the professional world.

The university college is also open on the world. Not only is its student population extremely multicultural, the institution also encourages international exchanges—both traineeships and Erasmus stays—and collaborates with research centres to ensure high quality teaching.

For every project, for every talent

The Haute École de Namur-Liège-Luxembourg (Hénallux) numbers nearly 6,000 students spread across ten campuses, in the Provinces of Namur, Liège and Luxembourg. It offers a vast range of training in higher education, at Bachelor's and Master's levels, several one-year specialisation programmes and a large number of in-service training sessions. It is part of two academic hubs: the Namur Hub and the Liège-Luxembourg Hub.

High values

The Hénallux organises local training with an international flavour, staying one step ahead of the evolution of society's needs and contexts, taking a supportive, sustainable development approach. It helps each student develop their skills, independence and responsibilities to help them bloom personally and professionally. The values of responsibility, agility, solidarity, kindness and open-mindedness underpin the daily actions of everyone at Hénallux.

If you fancy studying at Hénallux, don't hesitate to go further in your search for information: meet students and teachers, particularly during the Open House Days, the Open Courses and Information Evenings.

High level training offering everyone equal opportunities for social emancipation! Every day, nearly 9,500 students place their trust in the Haute École Provinciale de Hainaut - Condorcet (HEPH-Condorcet).

Since 2009, the HEPH-Condorcet has offered accessible, quality teaching open to students from other provinces and abroad.

More than 70 training courses and 4 campuses

Bachelor's, Master's and specialisation courses are organised on the various campuses of HEPH - Condorcet (Wapi, Mons, Centre, and Charleroi). Wide geographical coverage and teaching focussing on professional practice are where the HEPH-Condorcet really scores.

5 departments

Haute École Condorcet is organized into five departments: Human Movement Sciences; Health Sciences; Agrobiosciences, Applied Arts and Technologies; Economics, Law and Management; and Social and Educational Sciences.

Values at the heart of an educational project

Following in the footsteps of the famous humanist Marie Jean Antoine Nicolas de Caritat, Marquis of Condorcet, the institution promotes democratic teaching, open to all, focussing as much on training for a critical mind as spreading citizens' wings. Its teams fulfil government service missions observing the principle of neutrality, in line with the values of the educational, social and cultural project (PPSC). This commits them to actively participating in building a democratic, stimulating, tolerant and fun society, interactive and responsible.

Choosing the Haute École de la Province de Namur means choosing a human-sized institution where every student receives personalised support to succeed in their studies and build their future career.

At the Haute École de la Province de Namur, students are at the heart of everything we do. Our academic and administrative teams provide guidance throughout every stage of their journey, fostering a supportive, stimulating and student-centred learning environment.

Drawing on the expertise of our lecturers and programme coordinators, we offer curricula that reflect the realities of today's professional world and meet the evolving expectations of employers. Our programmes are practical, up to date and designed with the future in mind.

With 11 bachelor's degree programmes and 2 advanced specialisation programmes, we prepare students for the professions shaping tomorrow's society. Our graduates go on to work in innovative, meaningful and high-demand sectors, benefiting from excellent career prospects.

Our programmes cover three main areas:

- Economics and Management Sciences
- Public Health and Motor Sciences
- Agricultural Sciences and Biological Engineering

Beyond the classroom, we encourage collaboration across programmes through interdisciplinary projects, activities and events. We believe that sharing knowledge and bringing together diverse perspectives are essential to preparing the professionals of tomorrow.

At the Haute École de la Province de Namur, we empower every student to take an active role in their education, develop their skills, creativity and entrepreneurial mindset, and build a future that reflects their ambitions.

The Haute École de la Ville de Liège (HEL) is a human-scale institution that truly cares about its students. With a warm atmosphere and a teaching staff that is attentive and accessible, HEL provides high-quality education while guiding and supporting students throughout their academic journey.

HEL offers professional bachelor's and master's degrees, divided into four departments:

- Economic and Management Sciences: Accounting (management, taxation, Executive assistant, Public relations, Hotel management: hospitality management, Administrative sciences and public management)
- Paramedical Studies: Speech therapy, Orthoptics (co-organized with HEPL), Audiology (co-organized with HEPL)
- Education Sciences: Early childhood care and education, Master's in Teaching – Section 1 (preschool and early primary education), Master's in Teaching – Section 2 (primary and late preschool education), Master's in Teaching – Section 3 (lower secondary and late primary education)
- Science and Technology: Automotive (expertise, mechatronics, alternative energies), Chemistry (applied chemistry, environment), Electronics (automated production systems, embedded systems, audiovisual systems), Information Technology (network architecture, advanced programming languages, embedded microinformatics), Alternative and renewable energies (co-organized with HEPL)

HEL has five campuses, all easily accessible by public transport and by car, located:

- In the heart of the city
- Near cultural sites, shops, restaurants, and cafés
- In a welcoming and vibrant city
- Close to the Netherlands and Germany
- One hour from Brussels

Liège, a dynamic city offering an ideal environment for students!

SCHOOLS OF ARTS IN FRENCH- SPEAKING BELGIUM

Internationally recognised education in artistic techniques

The internationally renowned schools of arts in French-speaking Belgium have very different sizes, varying from 75 students up to a thousand. In total, it represents around 8000 students. Schools of arts offer quality education in five fields of study: dance; music; theatre; plastic, visual and spatial arts; and performing arts and broadcasting communication techniques. They aim to be multidisciplinary places of research and creation and are strongly focused on students' artistic projects. They train not only artists, but also pedagogues and social actors to respond to the realities of the field and of society.

How are schools of arts studies organised?

After passing an admission test, schools of arts offer:

- One cycle leading to a professional bachelor's degree (180 to 240 ECTS credits).
- In two or three cycles:
 - a 1st cycle leading to the award of an academic bachelor's degree (180 ECTS credits),
 - a 2nd cycle leading to the award of a master's degree (60 to 120 ECTS credits),
 - in collaboration with universities, a 3rd cycle in art and art sciences lead to the award of a PhD.

ACADÉMIE DES BEAUX-ARTS DE TOURNAI

HEAD OFFICE

Rue de l'Hôpital Notre-Dame 14
7500 Tournai
<http://actournai.be/>

Contact person for international relations:

Thomas BOUCART : international@actournai.be

The Tournai Academy of Fine Arts (ACT) is a Higher School of the Arts offering long-cycle higher education programmes in accordance with the European Higher Education Area (EHEA). Founded in 1756, the Academy is a multidisciplinary institution dedicated to artistic research and creative practice, combining a rich historical heritage with contemporary innovation.

Its teaching philosophy is forward-looking, fostering creativity, openness to the future, and the development of each student's individual artistic approach while maintaining a strong connection to the history of art. The Academy promotes experimentation, autonomy, and social responsibility, enabling students to cultivate a distinctive and critical artistic voice in dialogue with contemporary society.

The pedagogical approach integrates practical and theoretical learning. Technical skills are developed alongside analytical, reflective, and critical thinking, while artistic research is grounded in personal practice, experimentation, and collaboration with universities and other higher education institutions. The Academy encourages individual expression and active engagement in cultural and social life. The Academy offers nine advanced programmes in the fields of Visual Arts and Spatial Arts: Interior Architecture, Textile Design, Painting, Drawing, Advertising, Visual and Graphic Communication, Comics, Illustration, and Digital Arts. The curriculum is organised into two study cycles: a first cycle leading to a Bachelor's degree (180 ECTS credits) and a second cycle leading to a Master's degree (120 ECTS credits), with options for specialised, teacher-training, or advanced study. Each programme specifies its course units, learning activities, contact hours, ECTS credits, learning outcomes, and assessment methods.

The ESA also offers a 30-ECTS Higher Secondary Education Teaching Certificate and a specialised Master's degree in Cultural Mediation.

ACADÉMIE ROYALE DES BEAUX-ARTS DE LA VILLE DE BRUXELLES

Rue du Midi 144

1000 Bruxelles

<http://www.arba-esa.be/>**Contact person for international relations:**Dana TRAMA: erasmus@arba-esa.be

The prestigious history of the Academy contributes to its notoriety.

But it is its current educational and artistic project, that is, its investment in the future, that is important to us above all in order to provide you with the tools and knowledge, both theoretical and practical, which guarantee your artistic and professional future.

It is now a higher education inserted in the European framework of «Bologna» but also in the European University Pole Wallonia-Brussels.

Our commitment is to respond to the challenges of contemporary creation and the research that it requires, while developing your uniqueness as much by the transmission of knowledge and practices as by sustained enquiry.

The diversity of our orientations and the cultural practices that they develop or preserve, the simultaneity of the reflection and the resultant practice, the encounters that it offers, are all part of this mission. Our investment on new technologies and the quality of our renovated buildings confirm our ambition.

ARTS²**ARTS²**ÉCOLE SUPÉRIEURE DES ARTS
ACADEMY OF ARTS**HEAD OFFICE**

Rue de Nimy 7

7000 Mons

<https://www.artsaucarre.be/>**Contact person for international relations:**Christophe HORLIN: erasmus@artsaucarre.be

ARTS² is an Academy of Arts (Bachelor's and Master's degree) supported directly by the Ministry of College Education of Belgium's French Community. The size of the school (about 650 students) allows it to keep a particularly warm atmosphere yet it is part of a large and prestigious college education community (universities and College Universities) within the Pôle Hainuyer, thus offering numerous advantages to its students.

ARTS²'s mission is to train interpretive and creative artists in its three fields of expertise: Visuals Arts, Music and Theatre.

A didactic training is also available (Didactic Master's Degree and Aggregation of Secondary School Teaching).

Here are its two fundamental principles:

- Acquiring mastery of techniques, the intellectual knowledge, and the knowhow and interpersonal skills related to the domain chosen by the student;
- Event-driven artistic practice embedding the training programme in a continuous way by means of projects related to the cultural world/sphere.

BEAUX-ARTS DE LIÈGE – ÉCOLE SUPÉRIEURE DES ARTS

**HEAD OFFICE**

Rue des Anglais 21
4000 Liège
<http://www.esavl.be/>

**Contact persons for international relations:**

Carmela CHERGUL: esramus@intra-esavl.be
Bernard SECONDINI: b.secondini@intra-esavl.be

The Beaux-Arts de Liège - École Supérieure des Arts (BAL - ÉSA) provide training in the field of plastic, visual and spatial arts.

The Beaux-Arts de Liège offers nine Options: Comic Strip, Drawing, Engraving, Illustration, Painting, Advertising, Scenography, Sculpture, and Videography. Each of them is composed of two training cycles, Bachelor and Master. Each Master is divided into two finalities: specialized and advanced, except for the Master in Drawing, which does not have an advanced finality. The Beaux-Arts also organizes the Master in Teaching Section 5 (formerly the Agrégation). A collaboration with a university is possible to consider the participation of the Beaux-Arts within a 3rd cycle, the Doctorate. Finally, the Beaux-Arts participate in Erasmus+ exchanges. The training focuses on learning artistic know-how and developing relevant, autonomous and unique creative approaches. The student, his experience and his self-construction are at the center of the educational project. This is a differentiated pedagogy; it is focused on learning, exchange and experimentation. Through numerous exchanges and partnerships, whether regional, national or international, the Fine Arts open up to the world and are part of a network that allows students to be actors in a vast artistic community.

CONSERVATOIRE ROYAL DE BRUXELLES

HEAD OFFICE

Rue de la Régence 30
1000 Bruxelles
<http://www.conservatoire.be/en>

Contact person for international relations:

Salvatore GIOVENI: salvatore.gioveni@conservatoire.be

Founded in 1832, the Royal Conservatoire of Brussels is an Arts College run by the Federation Wallonia-Brussels. It is one of the oldest institutions for arts education in Belgium. While building on its prestigious past, the current work of the Conservatoire looks to the future, with a focus on delivering high quality education. We constantly strive to develop excellent methods of teaching to ensure that every student, whether musician or actor, can find themselves as an artist and follow their chosen path.

The tradition of the Conservatoire Royal de Bruxelles is maintained by a faculty of the highest quality both in terms of teaching skills and as performers in their own right.

The teaching methods have continually evolved in order to help our student musicians and actors fully develop their potential and find their own, individual, artistic pathway. In particular, teaching has been reformed and new courses introduced in line with the changing requirements of artistic and professional life. To this end, new departments have been created, such as the Jazz department, the Early Music department, or, more recently, the department of Pedagogy and the department of Rhythms and rhythmic.

Today, the Conservatoire Royal de Bruxelles has just over 650 students who come from five continents - 75% from outside Belgium - and they are taught by around 230 teachers. The courses are offered at university level, and are organised and recognised by the Federation Wallonia-Brussels, and equip graduates of the Conservatoire with excellent professional perspectives.

CONSERVATOIRE ROYAL DE LIÈGE

Conservatoire royal de Liège

HEAD OFFICE

Rue Forgeur 14
4000 Liège
<http://www.crlg.be/>

Contact person for international relations:

Clara LARRAURI: relations.internationales@crlg.be

The Royal Conservatoire of Liège is a Federation Wallonia-Brussels School of Arts which offers high level artistic training (Bachelor's, Master's and Teaching Diplomas) in the field of music and theatre.

Founded in 1827, it is one of Europe's oldest conservatoires, offering a professionally-orientated music course.

Hosting about thirty students at the time it was created, the Conservatoire's population saw a rapid increase in the XIXth century. At the time, the school trained some notable musicians, including César Franck, Eugène Ysaÿe and Henri Vieuxtemps. The Royal Conservatoire of Liège has steadily worked on its structure and developed over the course of the XXth century. In 1930, the school's Theatre section was created. Since the 1970s, especially on the initiative of Henri Pousseur, the school has become a wonderful place for contemporary creation, in music and theatre alike. An artistic institution of international renown, it now hosts more than 350 students and has about one hundred tutors.

Since 2014, Nathanaël Harcq has been the Director of the Royal Conservatoire of Liège (in charge of training actors). A new Director in the field of Music will be appointed soon.

ÉCOLE NATIONALE SUPÉRIEURE DES ARTS VISUELS DE LA CAMBRE

HEAD OFFICE

Abbaye de La Cambre 21

1000 Bruxelles

<http://www.lacambre.be/en>

Contact persons for international relations:

Kevin SALADÉ, kevin.salade@lacambre.be

Lucas LIMONGELLI, International officer: international@lacambre.be

Founded in 1927 by the architect and interior designer Henry van de Velde, the École Nationale Supérieure des Arts Visuels de La Cambre (ENSAV) is one of the leading art and design schools in Belgium. It has 850 students in 20 art departments or workshops: ceramics, animation, drawing, urban space engraving and printmaking, painting, photography and sculpture, as well as a department of conservation and restoration of works of art and, in the field of design, options in industrial design and textile design, book and paper design (bookbinding), interior design, scenography, accessories, fashion design and creation, and two graphic design departments - visual and graphic communication, typography. Two new courses had started in September 2020: Texts and Literary Creation and in September 2021: Master in Dance and Choreographic Practices (training organised exclusively at Master level).

Students are also offered a range of cross-disciplinary artistic practices, both compulsory and optional: digital arts, life modelling and perspective, colour, video, performance and body arts, book arts and illustration, etc. In addition to their artistic training, students receive sustained theoretical and technical training, both general and specialised, and are encouraged to undertake work placements outside the school: Erasmus, artists' assistantships, placements in art centres, agencies or companies, etc. The course lasts 5 years and is divided into 2 cycles: Bachelor's and Master's degrees. The school also offers post-graduate training for the Agrégation - for those wishing to teach art - and prepares students for the Doctorat en art et sciences de l'art, organised jointly with the University. Outside the curriculum, it organises a propaedeutic course during the school year and a summer course, both aimed at students in their final year of secondary education who wish to pursue higher studies at an art school.

ÉCOLE SUPÉRIEURE DES ARTS DE L'IMAGE « LE 75 »

**HEAD OFFICE**

Avenue Jean-François Debecker 10
1200 Bruxelles
www.leseptantecinq.be
www.le75.be

**Contact for international relations:**

Marie MALOUX: marie.maloux@le75.be, erasmus@le75.be

The École Supérieure des Arts de l'image LE 75, founded in Brussels in 1969, offers a bachelor's degree in art in four areas of the visual and spatial arts: Graphic Design, Plural Printed Images, Painting and Photography. The school's first distinctive feature is that its teaching focuses on the visual arts. At Le 75, images are approached in all their diversity of practices and uses, as well as in their modes of production and distribution.

The second distinctive feature of the 75 programme is that it is taught intensively over three years. It demands a major commitment from the people who make it happen, and particular attention is paid to ensuring that the course ends with successful formal proposals, presented to the public at an exhibition held outside the school at the end of the juries' term.

LE 75 constantly strives to keep in touch with the outside world through field exercises, professional guest speakers, study visits, internships and national and international exchanges (Erasmus +), so as to equip students to deal with the society in which they will be called upon to exercise their talents.

LE 75 is also one of the sixteen Écoles Supérieures des Arts (ESA) subsidised by the Wallonia-Brussels Federation. The training and the diploma obtained are recognised by the Federation and by the European Union.

ÉCOLE SUPÉRIEURE DES ARTS – ÉCOLE DE RECHERCHE GRAPHIQUE

erg

**HEAD OFFICE**

rue d'Irlande 57
1060 Bruxelles

IMPLANTATION "PAGE"

Rue du Page 87
1050 Ixelles
<http://wiki.erg.be/>

**Contact person for international relations:**

Sammy DEL GALLO: sammy.del.gallo@erg.be,
international@erg.be

Since its inception, the erg has supported students in developing artistic and research practices—whether individual and/or collective—without any disciplinary restrictions. It develops a pedagogy that is directly attuned to societal changes and the crises that characterise them.

The erg is an 'environment' conducive to the coexistence of different pedagogical approaches and to practices of research and experimentation. Both students and teaching staff encounter a diversity of methodological approaches and discourses; they learn from the constant exchange of viewpoints and thus participate in a conversation that shapes everyone's practices. From this context emerge practices that question normative systems and interdependencies in a manner that is both critical and constructive.

ÉCOLE SUPÉRIEURE DES ARTS DU CIRQUE

**HEAD OFFICE**

Campus du Ceria 8B
Avenue Emile Gryzon 1
1070 Anderlecht
<http://esac.be/en/>

**Contact person for international relations:**

Thaïs CESAR: thais.cesar@esac.be

The Superior School of Circus Arts (ESAC) is the only school in Belgium that offers an officially-sanctioned degree program in circus arts. Students who successfully complete three years of study at ESAC are awarded a Bachelor's Diploma (180 ECTS-Bologna credits) in Performing Arts and Arts Promotion / Communication Techniques — Circus Concentration.

Studying at ESAC is a full-time commitment, and students are not able to engage in other activities while enrolled. ESAC teaches the full and varied spectrum of skills that today's professional circus artist requires. Students must display competence in their chosen specialty to be granted admission. In addition to their speciality class, they will have workshops in show creation, academic courses, and required independent projects, as well as classes in dance, acting, music, hand-balance, and acrobatics.

ESA SAINT-LUC TOURNAI

**HEAD OFFICE**

Chaussée de Tournai 7

**Contact person for international relations:**

Cécile THUILLIER: c.thuillier@stluc-esa-bxl.org

ST-LUC BXL School of Arts* is an educational institution as well as a place for creation and production, where generations of artists and project creators are nurtured.

Its purpose is to train creators under the guidance of theorists, teachers, and researchers from the artistic fields taught, by offering educational programs focused on careers in design, construction techniques, interior design, eco-design, innovative policies, and new forms of graphic and visual communication and contemporary storytelling, including digital media. These programs encourage both practice and reflection, with the goal of providing students with a solid general education and the critical tools necessary to practice their discipline.

Furthermore, ST-LUC BXL actively participates in research programs, most often in collaboration with Belgian and international academic partners, public agencies dedicated to energy and the environment, public organizations supporting research and innovation, artist-researchers, and cultural actors.

ST-LUC BXL has established a presence abroad through festivals, fairs and networks, thereby contributing to its international reputation; it also encourages student mobility for study and internships, as well as faculty mobility as part of interdisciplinary and research projects.

* ST-LUC BXL is a school of arts operating as a fully accredited institution within the publicly subsidized network (Wallonia-Brussels Federation). It is one of four schools grouped under the non-profit organization "Organizing Committee of the Saint-Luc Institutes" in Saint-Gilles.

ART: A PASSION, MULTIPLES PROFESSIONS

Building on a teaching tradition dating back 130 years, ESA Saint-Luc Liège School of Art and Design endeavours to set the benchmark of higher education in the arts by training artists and creators in touch with the contemporary world. Located at the heart of the creative district of Outremeuse, our school welcomes more than 1,200 students from all walks of life who share the credence that artistic creation has the power to transform the world.

We offer eleven courses, including four academic oriented degrees (Ba+Ma): Interior design, Visual and graphic communication, Conservation and restoration of works of art, Industrial design.

As well as six professional bachelor degrees: Comic strip (a.k.a. "Bande dessinée"), Illustration, Painting, Photography, Advertising, Sculpture.

In collaboration with the University of Liège, we also offer teacher training for graduates.

We share our green and spacious campus, with the Faculty of Architecture of the University of Liège. Our state-of-the-art facilities including: a printmaking centre, photography studios, design workshops, Fablabs, exhibition spaces, a specialised library, computer rooms, and a sustainable cost-friendly cafeteria.

Along the way towards their professional future as artists, designers, art restorers, authors and creators, our students are supported by more than 150 teachers and 40 staff members.

Moreover, students are encouraged to get involved in the daily life of the institution and participate in decision making. This encourages students not only to shape their educational path but also drives them to become responsible citizens in tune with the questions of our time.

INSTITUT DES ARTS DE DIFFUSION

Cinema, television, radio, animation and multimedia, theatre. The IAD provides initial training, on Bachelor's and Master's degrees, in development, image, sound, editing/script, infographics/multimedia and acting/staging. The IAD also offers continuous training on radio animation and musical production – artist management.

Established in 1959, a year after the universal exhibition of Brussels, the IAD has trained more than 2,000 professionals who today hold a place in the Belgian, European and international audiovisual and theatre world. IAD aims to train professional artists who combine creativity, artistic sensitivity, technical Mastery and communication skills.

The learning and working method privileged at the IAD is to work as part of an interdisciplinary team, employing creativity, technical skills and professional reflexes, at the heart of project-based teaching and student training.

In addition to these professional skills, the tradition pursued by the IAD is to open up its students, whatever their origin, to the world surrounding them and to convey values of respect, tolerance and open-mindedness. In a constantly changing world, it is essential to discourage all forms of waste and to foster the training of curious, generous, open young artists.

INSTITUT NATIONAL SUPÉRIEUR DES ARTS DU SPECTACLE ET DES TECHNIQUES DE DIFFUSION

relations.exterieures@insas.be

INSAS is a school offering training in the performing arts (audiovisual and theater) and dance. INSAS belongs to the WBE (Wallonie Bruxelles Enseignement) educational network. As such, it upholds the values of tolerance, secularism and openness of public education.

In over sixty years of existence, INSAS has forged a reputation for itself both in Belgium and abroad, by constantly challenging its teaching methods.

The courses are carried out by professionals who are active in the creative fields they are responsible for teaching, ensuring that technical knowledge and critical thinking on technical and conceptual developments are constantly updated. This professional commitment on the part of our teachers fosters bridges between the school and the professions for which our students are destined.

The INSAS pedagogical project emphasizes on the learning of instrumental practice and thinking within teams, as part of a shared approach to artistic work. This learning is part of a whole in which the arts and their teaching are inseparably linked.

INSTITUT SUPÉRIEUR DE MUSIQUE ET PÉDAGOGIE

**HEAD OFFICE**

Rue Henri Blès 33A
5000 Namur
<https://www.imep.be/>

Blanche MARCHAL : erasmus@imep.be

Established in 1970, the IMEP (Institut Supérieur de Musique et de Pédagogie) is a place of creativity and freedom hinged on a long tradition of teaching. The teaching offered is multidisciplinary and based on research, creation and opening up to the world of arts, people and society: it offers higher education, training for artists, educators and social players, adjusted to the realities of contemporary society.

The institute assigns a special place to research in musical teaching and posturology. The teaching body of the IMEP consists of recognised artists-actors, composers and teachers. A total of 471 students are enrolled at the IMEP, of whom approximately 28% are of foreign origin.

The IMEP offers three-year training courses (Bachelor's degree) in music teaching and five-year options (Master's) in instruments, singing, musical computing, music theory and writing. The IMEP also delivers higher education teaching qualifications in one year, completing the Master's degree.

The school also welcomes young talents, who are waiting to achieve the diploma required to embark on higher musical studies full-time. Each year, a season of concerts, conferences, masterclasses and musical meets is organised. This allows students to attend and take part in the performances and assure visibility to the teaching projects beyond and outside the school.

ABOUT US, WALLONIE-BRUXELLES CAMPUS

WALLONIE
BRUXELLES
CAMPUS

The agency promoting higher education in French-speaking Belgium on the international scene, Wallonie-Bruxelles Campus is under the authority of **Wallonia-Brussels International (the Ministry of Foreign Affairs of French-speaking Belgium)** and the Ministry of the Wallonia-Brussels Federation, which is the relevant authority for teaching and education. Our agency is therefore at the service of international students and higher education institutions of the Wallonia-Brussels Federation.

The aims of Wallonie-Bruxelles Campus:

- To ensure the international visibility of French-speaking Belgian higher education and support the international action taken by higher education institutions;
- To provide international students with useful information and help them achieve their study plans in French-speaking Belgium;
- To develop specific information and promotional tools for higher education in Wallonia-Brussels;
- To ensure a regular watch, via its worldwide network, and inform higher education institutions in French-speaking Belgium about opportunities for international cooperation.

Wallonia-Brussels International

Wallonia-Brussels International (WBI) is the body responsible for Wallonia and Brussels international relations, i.e. the Ministry of Foreign Affairs of Wallonia-Brussels.

Under agreements with 70 countries and regions but also in its position within multilateral fora, WBI's mission is to increase the impact, influence and reputation of the Wallonia-Brussels area and of its representatives (higher education institutions, researchers, students, entrepreneurs, creators, artists, etc.).

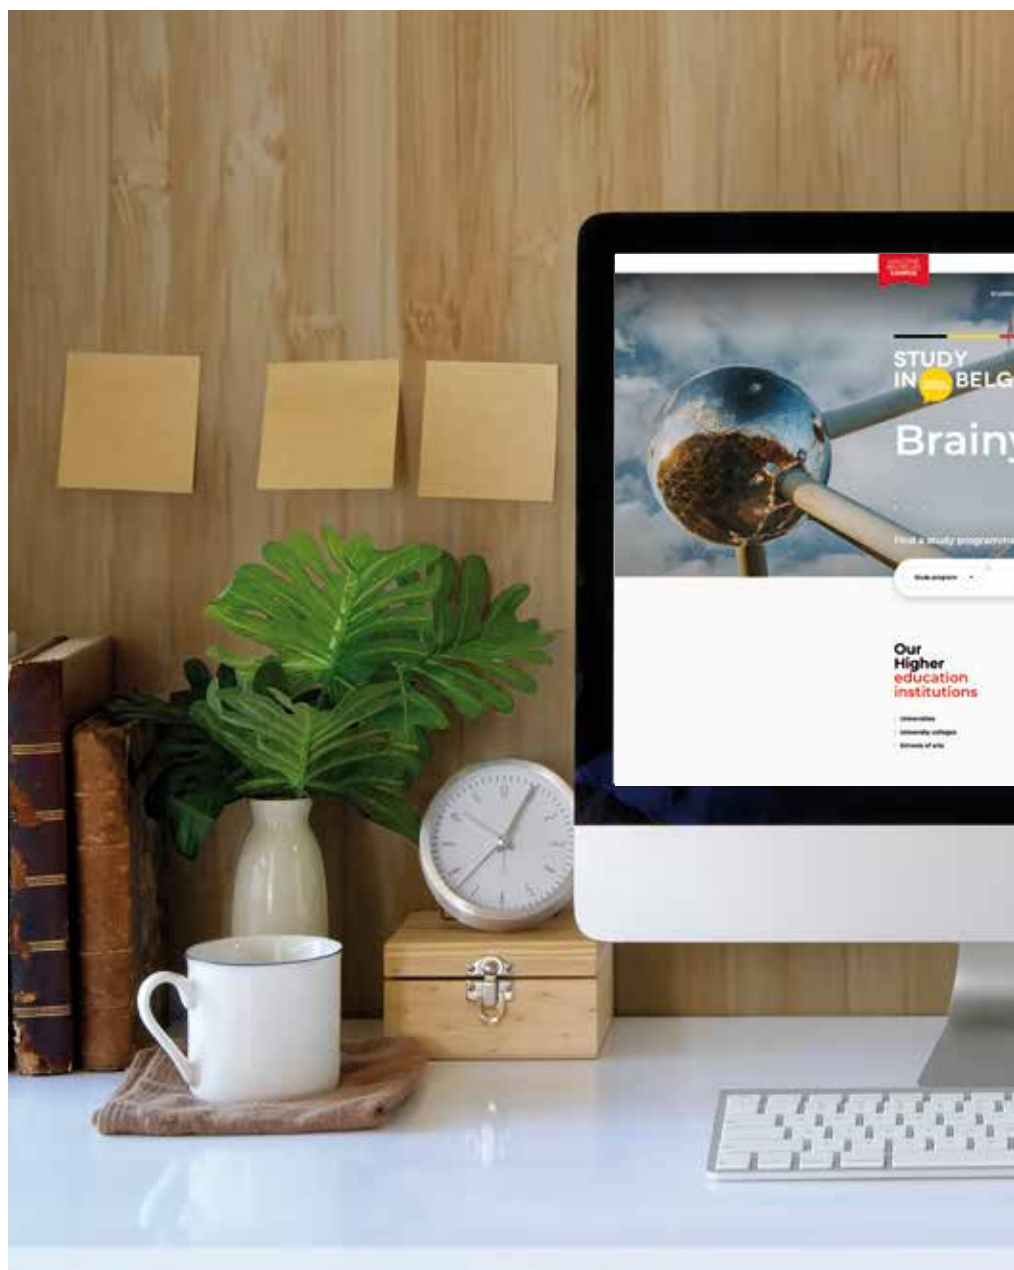

In practice, WBI's mission takes the form of five activities:

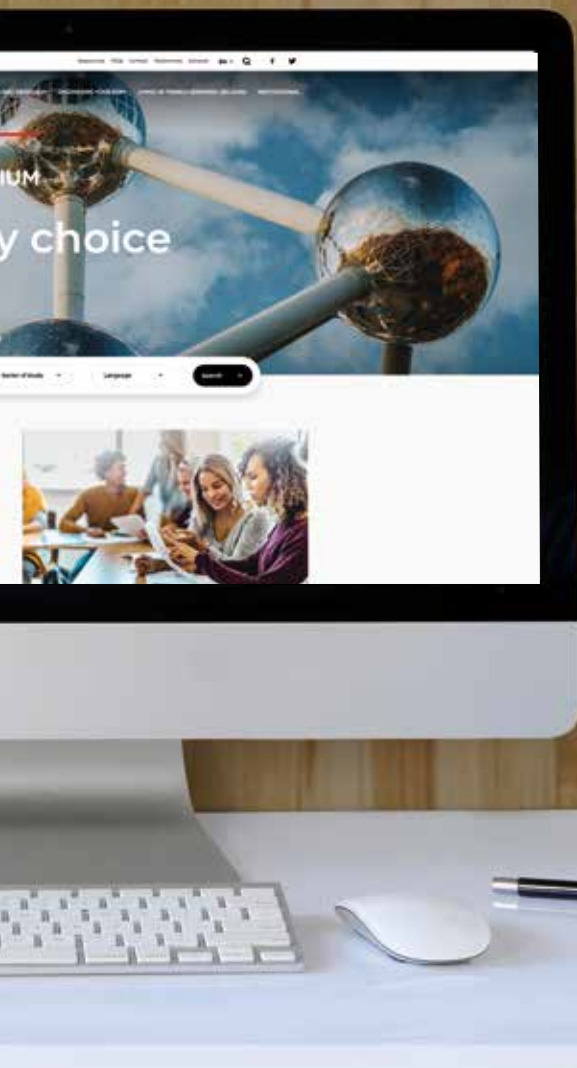

- Diplomatic representation
- Support for project development
- Promotion
- Networking
- Advice and strategic monitoring

WBI operates through a network of General Delegations with diplomatic status. The network abroad also includes science and academic counsellors.

OUR MAIN INSTITUTIONAL PARTNERS

In order to ensure the globalisation of French-speaking Belgian higher education, and as an agency of **Wallonia-Brussels International (WBI)** in charge of its promotion, Wallonie-Bruxelles Campus works closely with the external network of WBI as well as with the Academy for Research and Higher Education. Wallonie-Bruxelles Campus also collaborates on a regular basis with: the Ministry of the Wallonia-Brussels Federation, AEF Europe and the National Fund for Scientific Research (FNRS).

→ **The Ministry of the Wallonia-Brussels Federation** has the mission of implementing, after obtaining parliamentary approval, the policy adopted by the Wallonia-Brussels Federation government.
<http://www.federation-wallonie-bruxelles.be/>

→ **The Academy For Research and Higher Education** is the federation of French-speaking higher education institutions of Belgium. Its role is to ensure the global coordination of their activities and foster their development and collaboration. <https://www.ares-ac.be/>

→ **AEF Europe** is the French-speaking agency promoting lifelong education and training. It is in charge of the education and training part of the Erasmus+ programme. This Agency is in charge of promoting, implementing and managing the various programmes assigned it, in compliance with the European objectives. <http://www.erasmusplus-fr.be/>

→ **The National Fund for Scientific Research – FNRS** seeks to develop basic scientific research under the scope of the initiatives presented by researchers. It fosters the production and development of knowledge, supporting, on the one hand, researchers individually and, on the other, financing research programmes pursued in the laboratories and services mainly situated in the universities of the Wallonia-Brussels Federation.
